

# Lifesaving Solutions

➤ Customized Medical Solutions  
for Fixed & Rotor Wing Aircraft

# Spectrum Aeromed's mission is to save lives.

Our vision is to be the best provider of air ambulance solutions in the world. To accomplish this mission and vision, we are committed to:

- Providing the highest quality products and solutions
- Delivering a superior customer experience
- Continuously striving to improve our processes

“

We have been working with Spectrum Aeromed for many years and have been impressed with their ability to deliver high-quality, innovative air ambulance equipment and customized installations on multiple aircraft types. We look forward to continuing our partnership to meet our needs for turnkey air ambulance solutions.

”

**Chad McCracken**

Senior Director of Aviation Maintenance, Life Flight Network

# Our Legacy

For more than 30 years, Spectrum Aeromed's primary focus has been designing, manufacturing, and integrating customized medical and air ambulance solutions that are certified for a wide range of platforms. Our global clients and partners include hospital and healthcare programs, government and military, head of state/VVIP/executive, air ambulance operators, and OEMs.

## The Spectrum Aeromed Advantage

### > EXPERTISE

Decades of experience and strategic OEM collaborations

### > INNOVATION

Continuously improving and adapting to industry trends, delivering solutions that exceed industry requirements

### > QUALITY

Our equipment is widely recognized for its outstanding quality, consistently meeting the rigorous standards of a diverse market

### > GLOBAL TRUST

Spectrum Aeromed has successfully delivered solutions worldwide, establishing itself as a trusted name in the air ambulance industry

# Rotor Wing

**Medical solutions tailored to fit seamlessly into your operations.**

Our approach emphasizes customization tailored to the unique requirements of your program, achieved through close collaboration with your air medical team and helicopter crew.

- Carefully crafted helicopter solutions for safe and efficient patient care.
- Innovative rotor designs, including pivoting stretchers, EMS modules, and more.
- Accessory options include Infant Transport Decks, custom cabinets, stretcher bridges, IV poles, medical device mounts, and medical device packages.

# Fixed Wing

**Your trusted partner from Basic Life Support to Complete Turnkey Solutions.**

Spectrum Aeromed specializes in designing tailored fixed-wing solutions for air medical transport, guiding you from aircraft selection to seamless installation.

- Modular systems for quick 30-minute configuration changes.
- Dedicated EMS solutions for exclusive air medical missions.
- Custom executive modules.
- Seat Rail Adapter for easy module installation.
- Accessory options include Infant Transport Decks, manual and electric patient loaders, custom cabinets, stretcher bridges, equipment tables, IV poles, medical device mounts, and medical device packages.
